GEM MECHANICAL SERVICES, INC.

Certified by the Women's Business Enterprise National Council

[ASTON, PA]—6/1/2018—GEM MECHANICAL SERVICES INC., GEM Mechanical Services is a family-owned, Mechanical Contracting firm specializing in the installation of Heating, Ventilation, and Air-Conditioning systems for commercial and industrial clients is proud to announce national re-certification as a Women's Business Enterprise by the Women's Business Enterprise Council - PA, DE, sNJ, a regional certifying partner of the Women's Business Enterprise National Council (WBENC).

"We are honored to be re-certified as a Women's Business Enterprise," said Mary Gaffney, President, GEM Mechanical Services. "I see this certification as formal recognition of the significant influence women offer, particularly in the construction industry and fields historically dominated by males. There has been much written about the lack of women in the construction field so we are proud to stand up and be counted as one of the comparatively small number of women-owned businesses in this industry. My team and I will continue to work hard for our customers seeking efficient, on-time, done-right solutions and services."

WBENC's national standard of certification is a meticulous process including an in-depth review of the business and site inspection. The certification process is designed to confirm the business is at least 51% owned, operated and controlled by a woman or women.

By including women-owned businesses among their suppliers, corporations and government agencies demonstrate their commitment to fostering diversity and the continued development of their supplier diversity programs.
